

# Dan Hinkley Collection Mountain Pepper

## Mountain Pepper *Drimys lanceolata*

This refined, medium-sized evergreen shrub for mild climates has creamy green perfumed blossoms resulting in glistening black fruit in autumn. The distinctive foliage - oval in shape and a deep green - is held along beautiful red young stems.

### CARE

Moist well drained soil

Full sun to part shade

ZONE : 9-10

10 - 15 ft tall by 10 ft wide
