

NEW MONROVIA EXCLUSIVE BLUEBERRY

Bountiful Blue™ Blueberry

Vaccinium corymbosum FLX-2 PPAF

'Bountiful Blue' has a prolific fruit set of large, super sweet berries and the bluest foliage on any Blueberry we have ever seen, making it a standout in the landscape or in a container. Will set fruit alone, but the berries will be more numerous if it's planted near another blueberry; we recommend 'Sunshine Blue' Semi-evergreen in warm climates. Prefers acidic soil. Semi-dwarf moderate grower to 3 to 4 ft. tall and wide.

CARE

Needs regular watering - weekly, or more often in extreme heat
