

# New Spruce for 2011

## Engleman Spruce

### Engleman Spruce *Picea engelmannii* 'Bush's Lace'

A superb selection of Engelmann Spruce that develops a strong central leader with pendulous branches which in time create a gray-blue skirt around the base of the tree. Its beautiful blue color and habit make it a nice alternative to *Picea glauca* 'Pendula'.

#### CARE

Once established, needs only occasional watering

Full to partial sun

ZONE : 3 - 8
